

Disaster Relief Line (USA)

1-800-825-2806, ext. 1212

When natural disasters strike and communities are evacuated, congregational pastors in affected areas often have difficulty communicating with their members to determine their situation. At the request of mission center officers affected by recent hurricanes, International Headquarters has established a phone number U.S. members can call in case of disasters. This provides callers a place to leave information about the situation in their area and the assistance they may need.

We encourage local leaders to advise members of this service in advance. The message is: After you are somewhere safe, call the Community of Christ U.S. Disaster Relief Line at 1-800-825-2806, ext. 1212. Leave the information requested and it will be passed on to those who can offer assistance for your area.
